

# SIERRA MEDICAL CENTER

Brought to you by HERO Client Rescue S.A. in  
partnership with Doctors Bitar and Bitar

## COMING TOGETHER, TO INVEST IN HAITI

Despite Haiti's current crisis, we maintain our commitment to **leading**, **advancing**, and **investing** in Haiti's **medical system**. We are excited to announce the opening of our new **Level II Trauma Hospital** in Petionville, Port-au-Prince, **SIERRA MEDICAL CENTER**.

## MODERNIZING AND INTEGRATING

We are developing state of the art technology and systems to **modernize nationwide** access to **high quality** medical care.

We are also building upon our **extensive** medical **network** and systems to **integrate and advance** medical care and institutions throughout **Haiti**.

# WHAT MAKES SIERRA DIFFERENT?

## SIERRA DOCTORS

Most Doctors in Haiti are required to run their own hospital and practices. The stress of simultaneously running a hospital and practicing medicine create a **burden too heavy**. HERO believes these providers should only be **focused on their patient care**.

Sierra Medical Center is being built to be an **all inclusive medical facility** for Haiti's **top physicians, surgeons, and specialists** to come practice medicine, and only practice medicine.

## ONLY THE BEST

HERO has developed a reputation of **being the best in emergency care**. Why? Because we work with the **best providers Haiti has to offer**.

Sierra Medical Center will be the same. Any provider that is within the **Sierra Medical System**, will go through a rigorous vetting process, and you can be certain they are one of the **best doctors in their field**.

## SIERRA MEDICAL SYSTEM

Sierra Hospital in Petionville will be opening simultaneously with our **Sierra Clinic in Cap Haitian**. An on site nurse and Tele-health will be set up to connect people nationwide to the **best providers in Haiti**.

This site will be the first of many sites that we plan to set up throughout **all 10 departments in Haiti**.

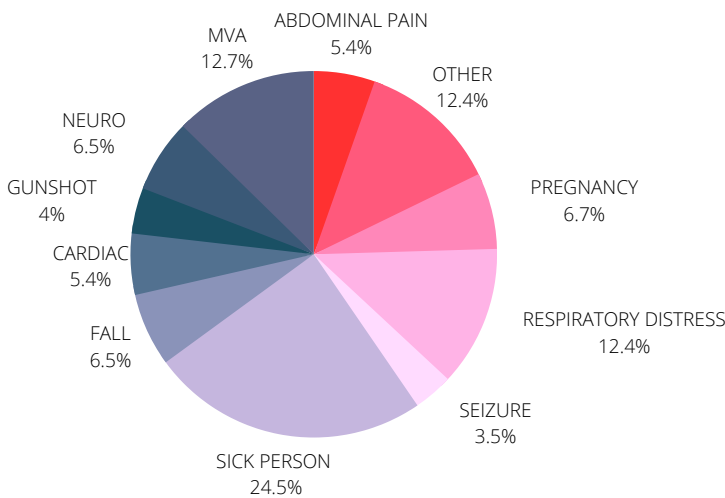

# HERO OPERATIONAL DATA 2022

2022 WAS A **TOUGH YEAR** FOR HAITI. MANY HAVE FLED OUR COUNTRY. DESPITE THE CHALLENGES, WE ARE STILL **INVESTING** IN HAITI. IN 2022 WE **DRAMATICALLY EXPAND** OUR CAPABILITIES, AND WILL KEEP THE MOMENTUM IN 2023

**390**  
MEDICAL  
RESPONSES

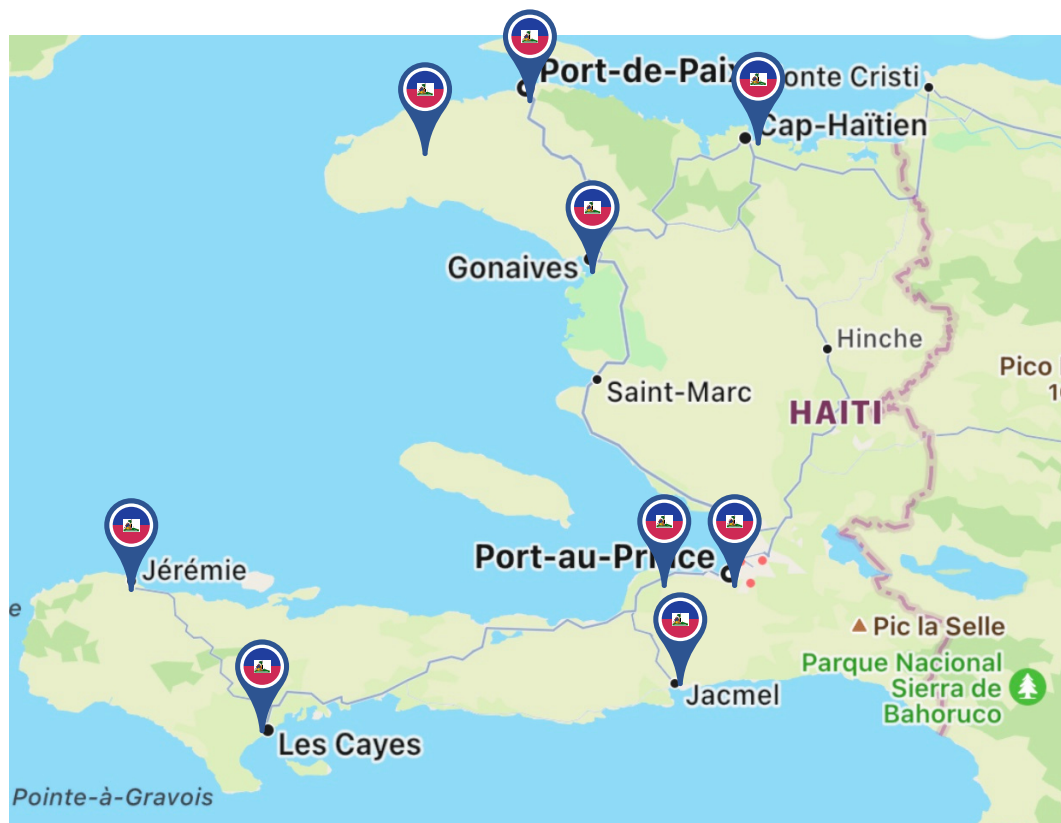

**\$100,000+**  
IN CHARITABLE  
CARE

**70**  
MEDEVACS

## TYPES OF CALLS

- Over **half** of our calls required one of our ER **Doctors** trained in Advanced Level Care
- We responded to **8** Mass Causality Incidents in 2022
- 20% of our calls were for **children**
- 119 of our calls were **Trauma**
- We transported our patients to over **30 different hospitals**

## HERO FLIGHT PROGRAM

With the introduction of our **new flight program**, HERO was able to respond to medical calls **all throughout Haiti**.

In addition, with our flight program, and contacts with other agencies, we were able to **medevac patients internationally** to **Cuba, Dominican Republic, and the United States**

# LEADERS IN PRE-HOSPITAL AND DISASTER CARE

## PRE-HOSPITAL CARE

HERO was one of the first and now the **largest EMS agency** in the country, reaching all 10 department of Haiti.

HERO is the **only Advanced Life Support (ALS)** ambulance service in the country, and one of the only medical services with **24/7 ER Doctor coverage**.

## NATURAL DISASTERS

HERO has **led** the national and international response to every **major disaster** to hit Haiti since 2016. Most notably the **2021 earthquake**. HERO's response saw us **treating and flying 100s** of patients a day and managing **multiple** field hospitals.

HERO also stays to manage the after-care of patients when the response is finished. Doctor house-visits, transportation to follow up appointments, and arranging transportation back home when medical care is completed **are all done by HERO**.

## COVID-19 RESPONSE

HERO also lead the response to COVID-19. In an **18 month** period HERO coordinated, tested, and processed over **150,000 COVID tests**, 100s a day. Many were same day testing for international flights.

HERO simultaneously treated, transported, and medevaced **100s of critical COVID-19 patients** during the pandemic.

# BITAR BROTHERS

## PIONEERING HAITI

Doctors Bitar and Bltar, who obtained their medical degrees in France, have helped **pioneer surgery** in Haiti.

Most notably implementing the protocols and teaching **laryngoscopy** to surgeons throughout Haiti.

The brothers are also credited with **transforming operating room** standards and surgery protocols **nationwide**.

## BERNARD MEVS MEDICAL DIRECTORS

Doctors Bitar and Bitar have **dedicated** their lives to the **advancement of medical care** in Haiti for over **two decades**. Most notable, being the **medical directors** of one of Haiti's most **prestigious** Hospital, **Bernard Mevs**.

Bernard Mevs treats over **35,000+** patients a year. With many of these patients being the most **complex** cases in Haiti, Mevs has set the **standard** for **trauma** and **critical care** nationwide.

## COMMITMENT TO THE POOR

The **BITAR** name has become a **household name** in **Haiti**. Not for their countless medical achievements, but for their **commitment** to their **country**.

They have **dedicated** their lives to **servng** all **Haitians**, regardless of economic status, providing **countless surgeries** for little to **no cost**.

# HOW CAN YOU HELP?

**BRIDGING CRITICAL  
MEDICAL AND  
EMERGENCY  
INFRASTRUCTURE  
GAPS IN HAITI**

We had originally built a **small scale high quality** Medical Center. However, with the closure of several **critical hospitals** and a **deteriorating** national medical system, a **large scale high quality** Medical Center is now necessary for Haiti. **Medical care is the backbone of stability.**
